

## Mammogram Assessment

---

Are your patients eligible for a rebate?

Medicare will initially be guided by, and honour, the details as stipulated by the requesting practitioner, regardless of what the patient does or does not state.

- Pain/ Tenderness
- Lump in Breast
- Fibrocystic change/ disease
- Previous Breast Cancer
- Family History (first degree relative only)
- Diagram where referring Doctor indicates area
- Exclude malignancy written on referral
- Discharge

If we perform a mammogram without having the necessary, eligible clinical indications present on the request form, there is no Medicare rebate.
